#: 109/2023

date: Oct 29th 2023**PRCS Report Update****From Saturday, October 7, 2023, at 06:00 AM****Until Sunday, October 29th, 2023, at 12:00 AM**

According to PRCS's president announcement, PRCS declared a state of emergency at the highest level in both Gaza Strip and the West Bank where the national society operates to fullest humanitarian and resource capacity for the 23th day on the row.

Latest Update**Gaza Strip:**

Complete disconnection with the PRCS's administrations, hospitals, and emergency centers in the Gaza Strip.

- Complete disconnection with the operations room in Gaza, and the response teams, after the occupying forces cut off all landline, cellular, and internet communication networks entirely at 18:15 until Sunday, 29/10/2023 at 4:00 am.
- The communication remains difficult after its return, as we are unable to communicate with our crews normally, in addition to the interruption of Internet networks.
- Over two million civilians in the Gaza Strip are directly endangered due to the intense and indiscriminate bombardment affecting all areas of the Gaza Strip.
- **As a result of the lack of gasoline, 3 ambulances operating on this type of fuel were stopped, so the operating capacity became 27 ambulances, which poses a threat to the continued provision of our humanitarian services if the interruption continues.**

Escalation statistics:

Gaza statistics: There are no statistics from the Gaza Strip due to the difficulty of communication and the absence of the Internet until the time of issuing this report.
