Palestine Red Crescent Society Response Report
As of Saturday, October 7 th 2023, 18:00 PM
until Wednesday, December 27, 2023, 24:00 AM

Palestine Red Crescent Society teams are still responding to the developments on the ground in the Gaza Strip, the West Bank, where PRCS operations are carried out 24\7, for the **82** day in a row.

Recent Developments:

- PRCS teams in the Gaza Strip have completely lost communication due to severed telecommunication and internet services, a direct consequence of the Israeli military aggression.
- Bombing of a residential building near Al-Amal Hospital in Khan Yunis has resulted in numerous casualties and injuries.
- PRCS's VHF aerial communication system has been targeted by the Israeli military artillery, noting it is the only current means of communication in Khan Yunis after the disruption of cell and landline services. Its performance is severely hindered, providing limited and poor-quality coverage only within PRCS premises. This severely impedes the ability of our EMS, and relief teams to effectively respond to the unfolding events.

Gaza Strip:

Disclaimer: The information in this report is limited, and only represents the available data which PRCS teams could gather directly or from various credible information sources by 25/12/2023. This limitation is due to communication disruptions and extreme difficulties in accessing information sources.

- PRCS teams, coordinated through the International Committee of the Red Cross, the evacuation of **8** people, including **5** wounded persons from the Al Ahli Baptist Community Hospital. In addition to **6** wounded persons from Al-Shifa Hospital to hospitals in the southern sector of the region. Additionally, a number of its teams and volunteers in the northern sector were evacuated after the Israeli occupying forces forced them to vacate the EMS center in Jabalia, raided the building, and destroyed the ambulances there.
- PRCS EMS center has been put out of service ceasing to provide any of its services including emergency response and rescue after the Israeli occupying forces forced some of the staff to leave the Northern Governorate of Gaza while it arrested some.
- **900,000** children in the shelters are at risk of dehydration, starvation, digestive and respiratory diseases, skin diseases, and anemia.
- **50,000** pregnant women in the shelters are without water, food, and healthcare, with about **180** women giving birth daily in unsafe and inhumane conditions.
- The healthcare system in the southern areas of Gaza is continuously deteriorating, while the northern areas of Gaza are completely deprived of any healthcare services, especially after the Israeli Occupation forces forced the Red Crescent Society EMS teams to evacuate out of the Northern Governorate thus obliging them to cease their medical operations there.
- According to live testimonies of Palestinian survivors from the northern governorates of Gaza who reported that the Israeli occupation forces committed mass executions and burials of over **137** Palestinian civilians in the Gaza and Northern governorates. Civilians were placed in a ditch, executed, and mass buried in the same ditch.
- Hundreds of pleas continue to come through various communication means of Palestine Red Crescent Society from citizens to intervene and evacuate them from different areas in the Gaza Strip where the army of the Israeli occupation is

present and deemed Israeli military operation zones. The occupation forces deliberately prevent our teams from intervening in those areas and our teams are subjected to targeted killing.

- All hospitals in Gaza and North Gaza provinces ceased operations due to the Israeli Occupation forces directly targeting and besieging the facilities. This includes preventing access for injured individuals and forcing medical teams to relocate southwards. Hospitals, medical staff, and displaced people within are directly targeted by the Israeli Occupation forces, leading to a severe health crisis.
- The Palestine Red Crescent EMS in Gaza province ceased its operations due to Israeli occupation forces restrictions against the medical teams, this accompanied by the fuel shortages (for ambulances), and the inoperative local hospitals, thus hindering humanitarian case evacuations. However, a medical mobile station in North Gaza was set up by PRCS EMS team and currently remains operational with the capacity to only handle minor and moderate cases.
- Hospitals in South Gaza are utilized beyond their capacity and unable to keep up with the massive number of injured persons, many of whom are at risk of losing their lives due to the escalation of Israeli aggression against civilians.
- Al-Amal Hospital in Khan Younis continues to face a severe fuel crisis, leading to downsizing utilization of the capacity of the facility to a bare minimum and operating according to a scheduled timetable. This significantly affects services for displaced people and patients, including ambulance and emergency medical services.
- Israeli Occupation forces continue intense airstrikes throughout Gaza, targeting industrial, residential, and commercial structures, as well as religious sites and main roads. This has resulted in numerous casualties, predominantly children and women, and complete infrastructure destruction, forcing citizen displacement.
- Israeli Occupation forces continue their incursions in strategic areas of Gaza and North Gaza, isolating them from southern provinces, and targeting any movement in these isolated areas. They have partially separated the regions by closing Salah al-Din Street, while allowing only a civilian passage through a mandatory route on Al-Rasheed Street.
- Medical and relief teams services are severely challenged due to the current status quo, the separation of Gaza and North Gaza, whereas Israeli occupation forces prohibit access to ambulances and EMS teams in areas of the Israeli military incursion and further shoots any moving target.
- The Israeli occupation forces continue to detain **8** members of the PRCS teams in the Northern Governorate of Gaza (paramedics and volunteers). This detention marks the **7th** consecutive day. Noting the detainees were apprehended at the PRCS's headquarters and taken to an undisclosed location, with their fate, current status, and whereabouts still unknown at this moment.
- The Israeli occupation forces continue the arbitrary detention of **Awni Khattab**, Director of the Khan Younis EMS, a PRCS facility, for the **36th** day in a row. It is noteworthy to mention that he was illegally apprehended at the checkpoint separating Northern and Southern Gaza while transferring a critical medical convoy of injured civilians from Al Shifa hospital to then operating Hospitals in the southern of Gaza.
- The Ministry of Health has confirmed the scope of the Israeli Occupation forces operations continued to include targeting civilian individuals and public hospitals and facilities. The following statistics are compiled from various official sources:

311 martyrs EMS teams	35 martyrs from the Civil Defense rescue teams	141 health institutions targeted	23 hospitals and 53 health centers were put out of service
102 ambulances targeted	59 ambulances completely-destroyed and put out of service	101 medical staff members detained	103 martyrs: journalists and media anchors
285 educational institutions targeted	92 educational institutions put out of service	115 mosques completely-destroyed	200 mosques partially-destroyed
3 churches targeted	7780 persons missing under the rubble, including 4700 children and women		8 journalists detained

- The Ministry of Health has also made urgent calls to facilitate the medical referrals and travel arrangements of over **5000** wounded persons to receive treatment abroad due to the lack of medical facilities and the severe shortage of medical supplies in the Gaza Strip.

West Bank:

The response of the Palestine Red Crescent Society to incidents is documented as follows:

- The central operations room at PRCS headquarters receives several appeals and reports on a daily basis about those adversely affected by the aggression in the Gaza Strip. The central operations team handles these reports and takes necessary actions to dispatch support. The reports vary and include different types of cases; wounded persons, martyrs, missing persons, childbirth, chronic diseases, citizens trapped in dangerous crossfire zones requesting urgent evacuation, not to mention medication.
- In collaboration with the International Committee of the Red Cross, PRCS' rapid response team evaluated the urgent needs of **6** Bedouin families in Froush Beit Dajan, Nablus Governorate. These families, comprising **29** individuals, suffered losses due to the destruction of their tents and residential shelters by the Israeli military forces. The team supplied them with essential relief items such as tents, women's dignity packages, kerosene stove, kitchenware, hygiene products, pillows, and jerrycans.
- PRCS rapid response team, working alongside the International Committee of the Red Cross, assessed the immediate necessities of **1** Bedouin family in Al-Nawaj'ah-Masafer Yatta, Hebron Governorate. This family of **7** was impacted by the demolition of their living structures. In response, we provided them with vital aid including tents, mattresses, blankets, kitchen tools, and hygiene supplies.

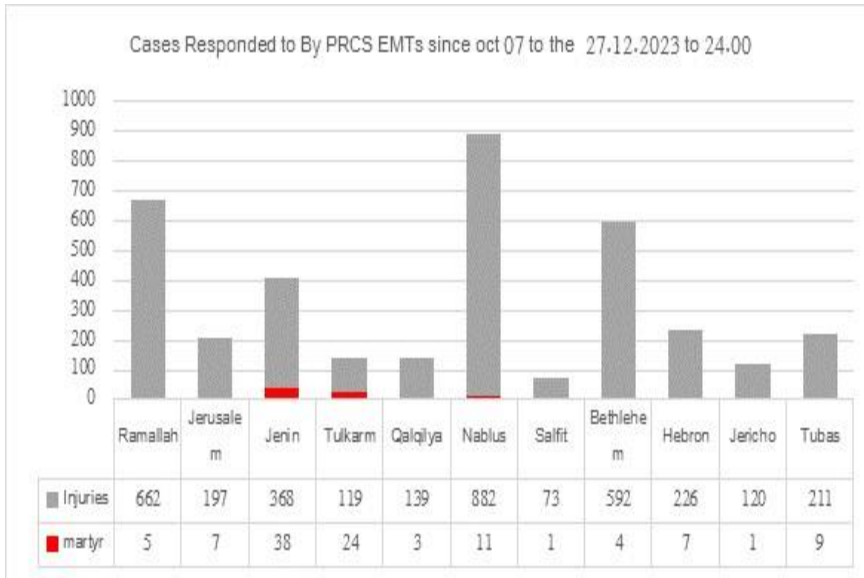

On Wednesday, December 27, 2023, the Israeli occupation forces raided several governorates in the West Bank. The response of the Palestine Red Crescent Society to incidents is documented as follows:

- Hebron Governorate, PRCS teams transferred **5** wounded persons; 4 shot with live ammunition and 1 assault and battery during an Israeli occupation forces incursion of the town of Bani N'aim.
- Tulkarem Governorate, PRCS teams transferred **3** Martyrs, **4** wounded persons; including 3 with shrapnel injuries, and 1 assault and battery during an Israeli occupation forces incursion of the refugee camp of Nur Shams.
- Bethlehem Governorate, PRCS teams transferred **4** wounded persons; 3 shot with live ammunition and 1 free fall during an Israeli occupation forces incursion of the refugee camp of Dhaishah.
- Tubas Governorate: PRCS teams treated **1** wounded person; upon sustaining assault and battery injuries due to the Israeli occupation forces incursion of the town of Tayaseer.

PRCS Emergency Medical Services Response

Gaza Strip:

PRCS Emergency Medical Services Response Gaza Strip: PRCS EMTs responded to **(14,283)** wounded, and **(4,550)** martyrs since the beginning of the escalation, according to the last report issued by the Central Operations Room of Gaza on December 25, 2023, received at 24:00. The chart below exemplifies the statistics. According to latest official data issued by the Palestinian Ministry of Health on December 25, 2023, at 13:00, it reported over **(20,674)** martyrs, over **(54,536)** wounded including well over **8,200 children**, well over **6,200 women**, and well over **750 elderly**, however these figures are preliminary due to the massive number of individuals still missing under rubble.

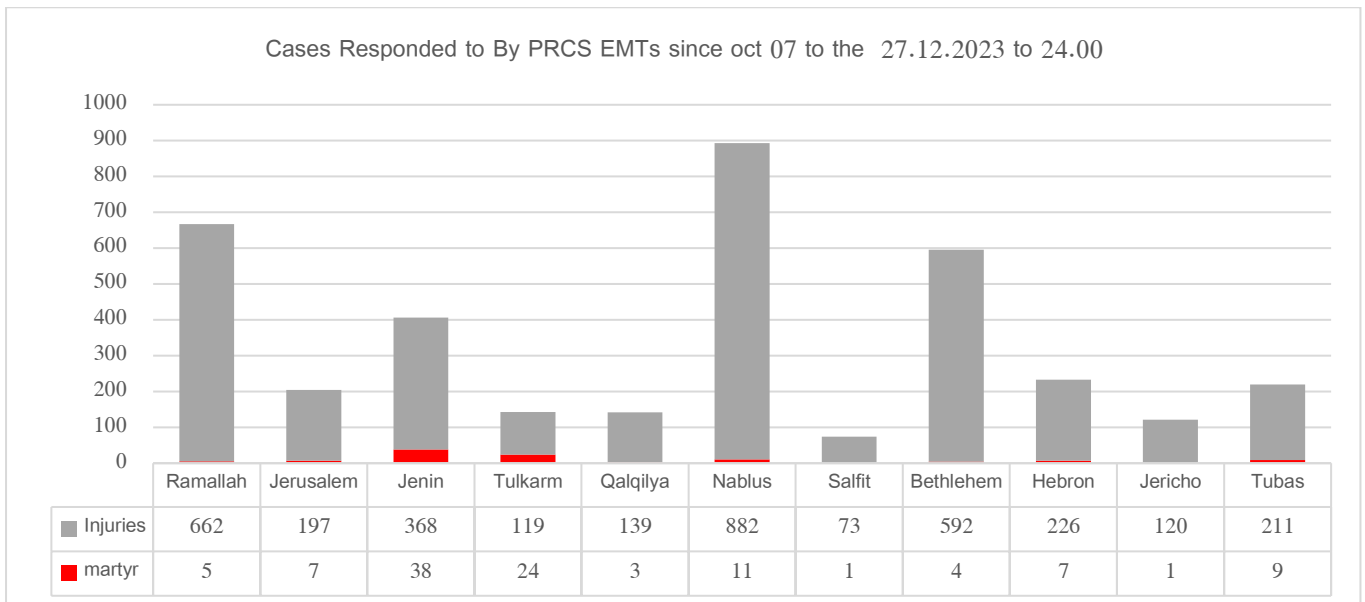

Cases handled by PRCS Hospitals I the Gaza Strip		
Al Quds Hospital as of 11/11/2023	Al Amal Hospital	Total
1169	1126	2295

dwelling with partial damage	dwelling unfit for human habitation
+ 290,000	+65,000

Emergency Medical Services Stations continue to operate at high capacity in response to ongoing events. As of today, there were **24** operational ambulances, including **2** for special tasks, staffed by **90** paramedics, drivers, first responders, administrators, and volunteers. The medical posts are actively receiving minor and moderate medical cases.

The West Bank and East Jerusalem:

The total number of cases responded to by PRCS teams from Oct 7th, 2023, until December 27, 2023, included **(3589)** wounded and **(110)** martyrs. The Palestinian Ministry of Health reported **(303)** martyrs and more than **(3431+)** wounded since 7th October, including **(535)** children, and **(85)** who were assaulted and wounded by the Israeli settlers' aggression as of October 7th until December 20th, 2023.

Violations against PRCS teams:

The Palestine Red Crescent Society enjoys special protections yielded by international humanitarian law, particularly the Geneva Conventions, and operates within the framework of its humanitarian responsibilities governed by said legal documents. The following recorded violations against our teams, vehicles, and patients are documented in accordance with the First and Fourth Geneva Conventions, the Additional Protocol to the Geneva Conventions, and customary international law.

Gaza Strip:

Total Number of violations	Violations Reported by 24:00 on December 25, 2023				
	Martyrdom of paramedics	wounded paramedics	Buildings	PRCS vehicles put out of service	Severely damaged vehicles
42	4	28	9	15	19

West Bank and East Jerusalem:

137 incidents mounting to violations against PRCS documented and reported by 24:00 on Dec 27, 2023	
Type of violation	Number
Prevent to access	63
Obstacle to access	58
Violations against EMT's documented and reported	73
Violations against ambulances documented and reported	65
Violations against Patients	63
Violations against PRCS facilities and premises	1
Total	315
Number of martyrs due to violations	4

Disaster Risk Management Response:

Gaza Strip:

The PRCS' relief teams continue their various efforts in responding to the displaced in all areas of the Gaza Strip, which are suffering from a major disaster due to the aggression on Gaza, in addition to the displacement centers in coordination with the relevant institutions.

- The total number of humanitarian aid trucks received by the PRCS from 21.10.2023 until the 22.12.2023 is **(4,760)** trucks, including **1,091** trucks during the 7 days humanitarian truce.
- The total share that PRCS distributed to the displacement centers, host families, residential communities, and relevant parties was **3,049** trucks, containing (medicine, medical supplies, beds and medical equipment, food and NFIs, water and milk, and hygiene items) .
- **1,711** trucks were distributed to UNRWA and other relevant parties .
- The number of trucks that entered the northern Gaza areas during the humanitarian truce period (**310**) trucks containing food, relief materials, drinking water, milk, and tents.
- The number of ambulances received by PRCS is **60**, and they were distributed according to an approved mechanism in coordination with the relevant actors.
- The total amount of fuel delivered into Gaza Strip until the moment is **3,790,667** liters, while the amount of cooking gas amounted to **1298.48** tons.

West Bank and Jerusalem:

Since October 7, 2023, until December 27th, 2024 PRCS disaster response team in coordination with the International Committee of the Red Cross (ICRC), carried out assessment and response missions to each of the governorates as follows accordingly:

Area	Incident	Families	Family members	Relief items
Jericho: Bedouin community in Alqalt	Israeli settlers and occupation forces targeted the inhabited barracks, while tampering with the properties	14	79	Blankets, hygiene kits, kitchen sets, jerrycans, tarpaulin
