Palestine Red Crescent Society Response Report
As of Saturday, October 7 th 2023, 18:00 PM
until Friday, December 29, 2023, 24:00 AM

Palestine Red Crescent Society teams are still responding to the developments on the ground in the Gaza Strip, the West Bank, where PRCS operations are carried out 24\7, for the **84** day in a row.

Recent Developments

Gaza Strip:

Disclaimer: The information in this report is limited, and only represents the available data which PRCS teams could gather directly or from various credible information sources . This limitation is due to communication disruptions and extreme difficulties in accessing information sources.

- PRCS Disaster Risk Management teams and the National Team volunteers are actively establishing a displacement relief camp, collaborating with the Egyptian Red Crescent in Al-Mawasi region, west of Khan Yunis. This project's initial phase involves constructing **300** tents, with plans to expand to **1000** tents in the final phase, accommodating up to 6000 displaced individuals. The camp, set up according to Sphere humanitarian standards, will provide comprehensive services such as water, sanitation, food, nutrition, and electricity.
- PRCS Disaster Risk Management teams and the National Team volunteers continue to progress on the Qatari field hospital, a joint venture with the Qatari Red Crescent, located in Al-Mawasi area, west of the Rafah Governorate. This facility, equipped to handle **50** beds, also includes a shelter for the hospital staff. It will further provide essential services like water, sanitation, food, nutrition, and energy supplies.
- According to official sources, the Israeli military has targeted and destroyed over 200 of the 325 archaeological and heritage sites in the Gaza Strip. These sites include historical mosques, churches, schools, museums, ancient homes, and various heritage landmarks.
- Frequent interruptions in cellular, landline, and internet services are adversely affecting the emergency medical and relief teams' ability to respond to humanitarian crises. These disruptions also hinder the coordination between the Emergency Operations Center in Gaza and its main headquarters in Ramallah.
- PRCS teams, coordinated through the International Committee of the Red Cross, the evacuation of **8** people, including **5** wounded persons from the Al Ahli Baptist Community Hospital. In addition to **6** wounded persons from Al-Shifa Hospital to hospitals in the southern sector of the region. Additionally, a number of its teams and volunteers in the northern sector were evacuated after the Israeli occupying forces forced them to vacate the EMS center in Jabalia, raided the building, and destroyed the ambulances there.
- PRCS EMS center has been put out of service ceasing to provide any of its services including emergency response and rescue after the Israeli occupying forces forced some of the staff to leave the Northern Governorate of Gaza while it arrested some.
- **900,000** children in the shelters are at risk of dehydration, starvation, digestive and respiratory diseases, skin diseases, and anemia.
- **50,000** pregnant women in the shelters are without water, food, and healthcare, with about **180** women giving birth daily in unsafe and inhumane conditions.

- The healthcare system in the southern areas of Gaza is continuously deteriorating, while the northern areas of Gaza are completely deprived of any healthcare services, especially after the Israeli Occupation forces forced the Red Crescent Society EMS teams to evacuate out of the Northern Governorate thus obliging them to cease their medical operations there.
- According to live testimonies of Palestinian survivors from the northern governorates of Gaza who reported that the Israeli occupation forces committed mass executions and burials of over **137** Palestinian civilians in the Gaza and Northern governorates. Civilians were placed in a ditch, executed, and mass buried in the same ditch.
- Hundreds of pleas continue to come through various communication means of Palestine Red Crescent Society from citizens to intervene and evacuate them from different areas in the Gaza Strip where the army of the Israeli occupation is present and deemed Israeli military operation zones. The occupation forces deliberately prevent our teams from intervening in those areas and our teams are subjected to targeted killing.
- All hospitals in Gaza and North Gaza provinces ceased operations due to the Israeli Occupation forces directly targeting and besieging the facilities. This includes preventing access for injured individuals and forcing medical teams to relocate southwards. Hospitals, medical staff, and displaced people within are directly targeted by the Israeli Occupation forces, leading to a severe health crisis.
- The Palestine Red Crescent EMS in Gaza province ceased its operations due to Israeli occupation forces restrictions against the medical teams, this accompanied by the fuel shortages (for ambulances), and the inoperative local hospitals, thus hindering humanitarian case evacuations. However, a medical mobile station in North Gaza was set up by PRCS EMS team and currently remains operational with the capacity to only handle minor and moderate cases.
- Hospitals in South Gaza are utilized beyond their capacity and unable to keep up with the massive number of injured persons, many of whom are at risk of losing their lives due to the escalation of Israeli aggression against civilians.
- Al-Amal Hospital in Khan Younis continues to face a severe fuel crisis, leading to downsizing utilization of the capacity of the facility to a bare minimum and operating according to a scheduled timetable. This significantly affects services for displaced people and patients, including ambulance and emergency medical services.
- Israeli Occupation forces continue intense airstrikes throughout Gaza, targeting industrial, residential, and commercial structures, as well as religious sites and main roads. This has resulted in numerous casualties, predominantly children and women, and complete infrastructure destruction, forcing citizen displacement.
- Israeli Occupation forces continue their incursions in strategic areas of Gaza and North Gaza, isolating them from southern provinces, and targeting any movement in these isolated areas. They have partially separated the regions by closing Salah al-Din Street, while allowing only a civilian passage through a mandatory route on Al-Rasheed Street.
- Medical and relief teams services are severely challenged due to the current status quo, the separation of Gaza and North Gaza, whereas Israeli occupation forces prohibit access to ambulances and EMS teams in areas of the Israeli military incursion and further shoots any moving target.
- The Israeli occupation forces continue to detain **8** members of the PRCS teams in the Northern Governorate of Gaza (paramedics and volunteers). This detention marks the **9th** consecutive day. Noting the detainees were apprehended at the PRCS's headquarters and taken to an undisclosed location, with their fate, current status, and whereabouts still unknown at this moment.
- The Israeli occupation forces continue the arbitrary detention of **Awni Khattab**, Director of the Khan Younis EMS, a PRCS facility, for the **38th** day in a row. It is noteworthy to mention that he was illegally apprehended at the checkpoint separating Northern and Southern Gaza while transferring a critical medical convoy of injured civilians from Al Shifa hospital to then operating Hospitals in the southern of Gaza.
- The Ministry of Health has confirmed the scope of the Israeli Occupation forces operations continued to include targeting civilian individuals and public hospitals and facilities. The following statistics are compiled from various official sources:

- The Ministry of Health has confirmed the scope of the Israeli Occupation forces operations continued to include targeting civilian individuals and public hospitals and facilities. The following statistics are compiled from various official sources:

312 martyrs EMS teams	40 martyrs from the Civil Defense rescue teams	141 health institutions targeted	23 hospitals and 53 health centers were put out of service
104 ambulances targeted	59 ambulances completely destroyed and put out of service	101 medical staff members detained	106 martyrs: journalists and media anchors
285 educational institutions targeted	92 educational institutions put out of service	115 mosques completely destroyed	200 mosques partially destroyed
3 churches targeted	7780 persons missing under the rubble, including 4700 children and women		9 journalists detained

- The Ministry of Health has also made urgent calls to facilitate the medical referrals and travel arrangements of over **5000** wounded persons to receive treatment abroad due to the lack of medical facilities and the severe shortage of medical supplies in the Gaza Strip.

West Bank:

The response of the Palestine Red Crescent Society to incidents is documented as follows:

- The central operations room at PRCS headquarters receives several appeals and reports on a daily basis about those adversely affected by the aggression in the Gaza Strip. The central operations team handles these reports and takes necessary actions to dispatch support. The reports vary and include different types of cases; wounded persons, martyrs, missing persons, childbirth, chronic diseases, citizens trapped in dangerous crossfire zones requesting urgent evacuation, not to mention medication.

On **Friday, December 29, 2023**, the Israeli occupation forces raided several governorates in the West Bank. The response of the Palestine Red Crescent Society to incidents is documented as follows:

- Jerusalem Governorate, PRCS teams responded to **6** wounded persons; 3 persons shot with live ammunition, 1 person shot with rubber-coated metal bullet, and 2 persons suffering from tear gas exposure during an Israeli occupation forces' raid into Qalandia refugee camp and the town of Kufr Aqab.
- Tubas Governorate, PRCS teams responded to **3** wounded persons shot with live ammunition during an Israeli occupation forces' raid on Al Far'aa refugee camp.
- Jenin Governorate, PRCS teams responded to **1** wounded person; shot with live ammunition during an Israeli occupation forces incursion of the village of Aneen.
- Bethlehem Governorate: PRCS teams responded to **1** wounded person; shot with live ammunition during the Israeli occupation forces incursion of the village of Tqou'.
- Qalqilya Governorate: PRCS teams responded to **1** wounded person; shot with live ammunition during the Israeli occupation forces incursion of the village Kufr Qaddoum.
- Hebron governorate: PRCS teams responded to **2** wounded persons; shot with live ammunition during the Israeli occupation forces incursion of Al Fawwar refugee camp and Yatta.

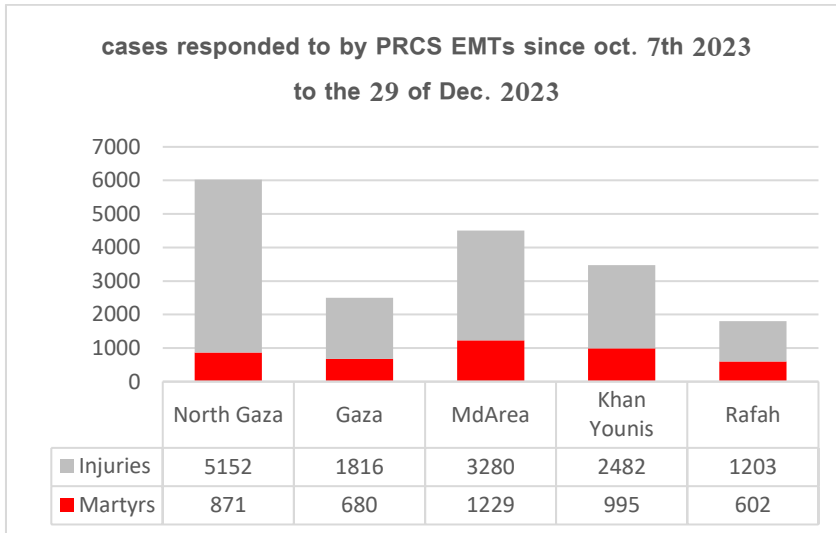

PRCS Emergency Medical Services Response

Gaza Strip:

PRCS Emergency Medical Services Response Gaza Strip: PRCS EMTs responded to **(14,399)** wounded, and **(4,651)** martyrs since the beginning of the escalation, according to the last report issued by the Central Operations Room of Gaza on December 29, 2023, received at 24:00. The chart below exemplifies the statistics.

According to latest official data issued by the Palestinian Ministry of Health on December 28, 2023, at 13:00, it reported over **(21,507)** martyrs, over **(55,915)** wounded including well over **+8,800 children**, well over **+6,300 women**, and well over **+750 elderly**, however these figures are preliminary due to the massive number of individuals still missing under rubble.

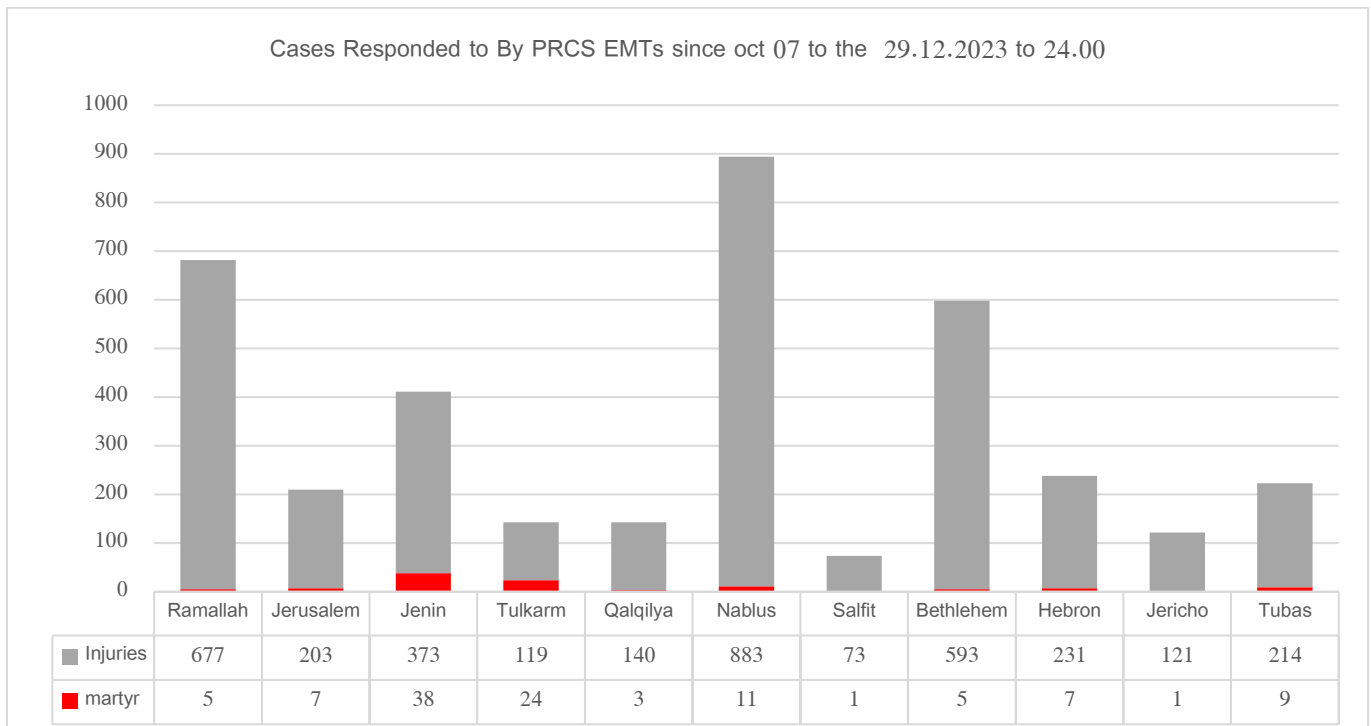

Cases handled by PRCS Hospitals I the Gaza Strip		
Al Quds Hospital as of 11/11/2023	Al Amal Hospital	Total
1169	1175	2344
dwellings with partial damage		dwellings unfit for human habitation
+ 290,000		+65,000

Emergency Medical Services Stations continue to operate at high capacity in response to ongoing events. As of today, there were **17** operational ambulances, including **2** for special tasks, staffed by **63** paramedics, drivers, first responders, administrators, and volunteers. The medical posts are actively receiving minor and moderate medical cases.

The West Bank and East Jerusalem:

The total number of cases responded to by PRCS teams from Oct 7th, 2023, until December 29, 2023, included **(3627)** wounded and **(111)** martyrs. The Palestinian Ministry of Health reported **(303)** martyrs and more than **(3431+)** wounded since 7th October, including **(535)** children, and **(85)** who were assaulted and wounded by the Israeli settlers' aggression as of October 7th. until December 20th, 2023.

Violations against PRCS teams:

The Palestine Red Crescent Society enjoys special protections yielded by international humanitarian law, particularly the Geneva Conventions, and operates within the framework of its humanitarian responsibilities governed by said legal documents. The following recorded violations against our teams, vehicles, and patients are documented in accordance with the First and Fourth Geneva Conventions, the Additional Protocol to the Geneva Conventions, and customary international law.

Gaza Strip:
