- The Israeli occupation forces intensified the siege of Al-Quds Hospital by advancing their way to the entrance of the hospital. They have also continued to directly attack Al- Quds Hospital through the firing of live ammunition at the intensive care unit of the hospital and the civilians inside the building, resulting in the injury of a number of displaced persons. These cases have been dealt with in the emergency unit of the hospital, in conjunction with PCRS crews' active commitment and maintenance of their humanitarian duties within the hospital and at the Society's headquarters.

This situation affirms that all persons present in the hospital including medical personnel, sick and wounded, and displaced persons could be facing imminent death at any moment.
- Communications with PRCS' Emergency Operations Room in Gaza remain cut off as a result of the loss of telecommunications and internet services in Gaza City as well as the VHF waves disruptions, impeding crews from effectively performing their duties and rendering the situation increasingly challenging.

- The Israeli occupation tanks and vehicles have penetrated into several districts in Gaza governorate and Northern Gaza governorates, which separated the southern part of the Strip from the north, which increases the challenges faced by the teams working in the field by prohibiting the ambulances from reaching to Al-Rasheed St which is the only coastal road and targets who and/ or whichever reaches the area. Additionally, citizens are prohibited from moving across the governorates, in spite of the occupation forces bombarding their residential buildings randomly.
- The Israeli occupation forces continue to target all sources of life in the strip, including targeting alternative energy networks and all bakeries that have already stopped as a result of the interruption of food supplies and the lack of electricity or fuel needed to operate them, as severe warnings are coming out concerning the depletion of food supplies and water in Gaza city and the northern Gaza, which exposes hundreds of thousands of citizens to extreme danger.
